IMMANUEL VELIKOVSKY
Earth in Upheaval
'Let us assume, as a working hypothesis, that under the impact of a force or the influence of an agent - and the Earth does not travel in an empty universe - the axis of the earth shifted or tilted. At that moment an earthquake would make the globe shudder. Air and water would continue to move through inertia; hurricanes would sweep the Earth, and the seas would rush over continents, carrying gravel and sand and marine animals, and casting them onto land. Heat would be developed, rocks would melt, volcanoes would erupt, lava would flow from fissures in the ruptured ground and cover vast areas.
IMMANUEL VELIKOVSKY
Earth in Upheaval
Mountains would spring up from the plains and would climb and travel upon the shoulders of other mountains, causing faults and rifts. Lakes would be tilted and emptied, rivers would change their beds; large land areas and all their inhabitants would slip under the sea. Forests would burn, and the hurricanes and wild seas would wrest them from the ground on which they grew and pile them, branch and root, in heaps. Seas would turn into deserts, their waters rolling away.

Your government and religious leaders may not want you to know, but the evidence suggests that pole shifts are both magnetic and geophysical, with a periodic cycle of recurring and predictable cataclysms involving huge earthquakes and tsunamis, changes in latitude and altitude, mass extinctions, and the destruction of civilizations, reducing them to myth and legend. Evidence from geology, biology, astronomy, physics, history, mythology, religion and prophecy all suggests that the next pole shift is due in the 21st century.

April 19, 2018 - These catastrophic **pole shifts** come in a periodic cycle of recurring and predictable cataclysms involving huge earthquakes and tsunamis, changes in latitude and altitude, mass extinctions, and the **destruction** of civilizations - reducing them to myth and legend.

Will the sun's magnetic poles flip in 2024?

The height of solar activity during a given solar cycle is known as solar maximum, and **current estimates predict it will occur between late 2024 and early 2026**. But there is another very important, albeit lesser-known, cycle that encapsulates two 11-year solar cycles. Jun 14, 2024

18 Bible verses about Escaping To Mountains

What goes around comes around Bible verse?

A man reaps what he sows. Whoever sows to please their flesh, from the flesh will reap destruction; whoever sows to please the Spirit, from the Spirit will reap eternal life. As you read these three verses it seems that "what goes around comes around" is a biblical concept. Aug 11, 2020

Ecclesiastes 1:9 What has been will be again, and ... - Bible Hub

There is **nothing new** in the whole **world**. ... Whatever has happened, **will** happen **again**; whatever has been done, **will be** done **again**. There is **nothing new** on **earth**.

YES OUR EARTH HAS ROLLED AND SHAKED IN THE PAST AND IS DUE AGAIN FOR MORE THAN ONE

GLOBAL CATACLYSMIC EVENT WHICH EVENT WILL HAPPEN AND WHEN?

Project Nanook, the Strategic Air Command's mission over the Arctic in the late 1940s, revealed that the magnetic pole was moving about 10 miles per year and is accelerating exponentially. After being analyzed by the OSS and the RAND corporation, it was decided that reporting this news to the public **would "destroy the moral fiber of society."** And was kept private.

Antarctica Before the earths tectonic plates rolled 12.000 years ago when it Froze over when the world back then tells us that it was the evil Continent of Atlantis.

THIS POLE ROLL SEEMS TO BE WHY REGIONS OF OUR EARTH ARE WARMING TODAY and is an EXCUSE THE DEEP STATE IS USING TO INSTALL THEIR NEW WORLD ORDER AGENDA'S.

If you notice the regions of the earth that are warming are the North and South Poles which have been slowly moving out of the freeze zones today.

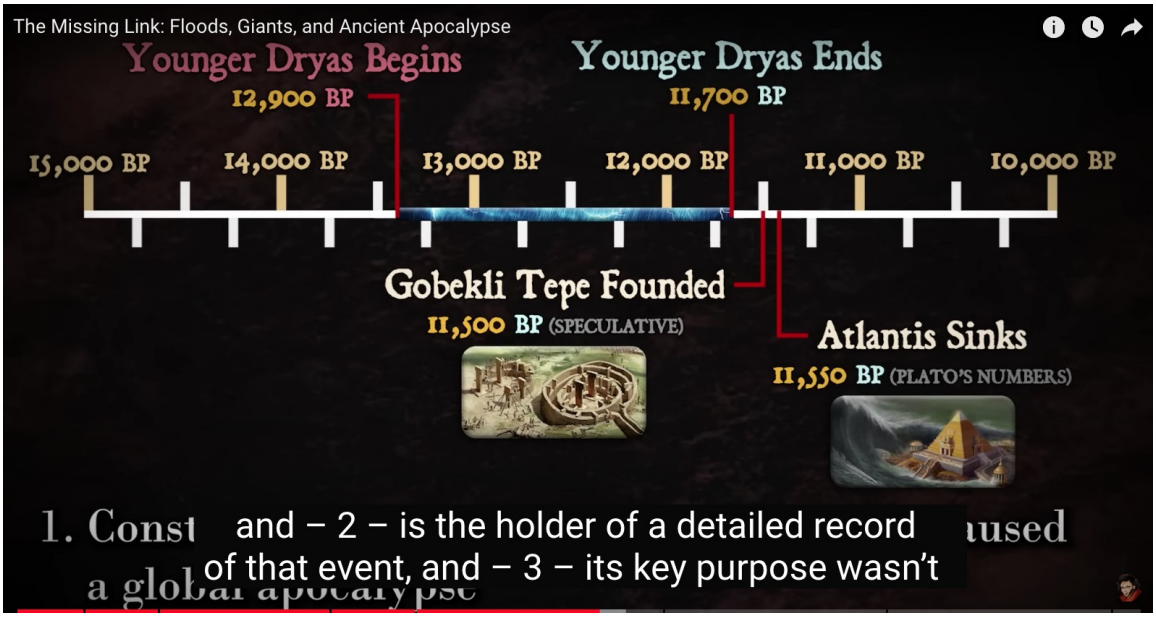
Charles Hapgood, the lead geoscience researcher working within the same network, produced the crustal displacement theory which argued that rapid catastrophic shifts explain how Antarctica was once temperate, how the Sahara was once green, and how mammoths were flash-frozen with undigested tropical plants in their stomachs.

In 1965, Chan Thomas, an aerospace engineer who worked for McDonnell Douglas, published a geological book titled ‘The Adam and Eve Story.’ The CIA subsequently classified it, removing it from public access. After a FOIA request, a sanitized 57-page version was released. Those pages describe a crustal shift completing in six to twelve hours, generating supersonic winds, and walls of ocean water two miles deep.

The flood myth appears in over 200 independent cultural traditions worldwide. Immanuel Velikovsky hypothesized that these mythologies are not metaphors, but eyewitness accounts of real catastrophic events within recorded human history. Events that can be seen in the historic record.



The Younger Dryas impact theory suggests that a comet struck around 13,000 years ago, wiping out many species of animal and causing a mini ice age that lasted more than 1,000 years. Göbekli Tepe was built about 11,600 years ago **and required engineering precision that archaeologists cannot explain.** The Sphinx shows water erosion from rainfall that last occurred in Egypt 10,000 years ago. The Piri Reis map, drawn in 1513, shows Antarctica's coastline accurately, as it exists now under the ice. **The pattern shows that about every 12,000 years, a civilization gets reset. But how this happens is a mystery.**

Jesus seemed to be telling us that what goes around comes back around and spent much of his time warming of a future earth-shaking event at the end of this current cycle or age.

What I notice is that the cultures that were destroyed or reset were evil regions of the world. You will notice this also if you DO YOUR HOMEWORK. Start your search with the South Pole, which was once known as the Continent of Atlantis, and next look at how the City of Atlantis was inundated.

Wallace Thornhill and David Talbott developed the Electric Universe theory, which proposes that plasma is the fourth state of matter and makes up 99.9% of the visible universe. According to their theory, planetary encounters produce massive electrical discharges which have left geological scars still visible today. Many other researchers point towards the sun.

Robert M. Schoch of Boston University, makes the case that the abrupt end of the last ice age, almost 12,000 years ago, was not caused by a comet, but was caused by Solar outbursts that increased earthquake and volcanic activity, fires, high radiation levels, and massive floods. Among his evidence for this is vitrified stone at Scottish hill forts and on the Giza Plateau.

Douglas Vogt has been studying the causes of geomagnetic reversals since 1971. He identified the exact number of years between reversals to be **12,068** years and argued that during a reversal, the Sun novas and causes an ice age.

Ben Davidson of Suspicious Observers believes that a geomagnetic excursion event will cause a geographic crustal shift at a catastrophic scale, and that this cycle repeats about every **12,000** years.

Astrophysicist Paul LaViolette argued that periodic super waves from the Galactic center — occurring roughly every **12,000 to 26,000 years** — produce crustal torque, earthquakes, volcanic eruptions, and massive solar events. He believed that the zodiac system encodes a warning about these catastrophic superwaves, and that smaller superwaves occur more frequently.

Jason Breshears of archaix.com theorizes that catastrophic reset events occur to some degree every 138 years, driven by what he calls the Phoenix phenomenon. He expects a significant event in 2040, with a larger phenomenon he calls the Nemesis X Object in 2046.

Most of these researchers seem to agree that the cycle is approximately 12,000 years, and the **last event was between 10 and 12 thousand years ago**. Also when you look at the behavior of world governments and the world's billionaire class, one can make the argument that a Great Reset is expected to happen soon.

THE APOPHIS ASTEROID IS NOW HEDDING DIRECTY FOR THE EARTH. SOME SAY IT WILL HIT ON FRIDAY APRIL 13, 2029.

Not only are we at that end of the 12.000 year cycle today but if Apophis hits the regions of the earth we think it might strike, the damage will also take out all of the Evil ASHKENAZI ZIONIST SHEPHARDIC JEWS AND MEROVINGIANS NWO DEEP STATE MOVEMENT OPERATIONS. There goes DC, New York City, Chicago, California, which are all DEEP STATE locations. There goes most of Europe, the Middle and Far East where all of the trouble is and where prophecy states the Gog Magog and Battle of Armageddon war will and are breaking out today.
